42 Mill Seats unimproved on the principal streams, of
various fall.

200 Mills and Mill Seats.

Making in the whole 158 Mills and Factories in opera-
tion, and 42 Mill Seats unimproved in a district of country
not exceeding twelve miles square, in the five kinds of man-
ufactories which have returned the number of hands, viz.
Paper, Woollen, Cotton, Powder, and Edge Tools—employ
1038 hands.

For a further and more particular account of the location
and capacity of the different Mills, Factories, and unim-
proved Mill Seats; we refer you to the annexed statement,
as given to Mr. Pearson by the respective owners and occu-
piers of the same. There are many particulars relating both
to this report and to other branches of industry, which your
Committee felt anxious to obtain, but owing to several cir-
cumstances, they found it impossible to do so. It was there-
fore reluctantly abandoned; but with a hope that the inquiry
will be further pursued in due time.

G. G. LEIPER,
W. MARTIN.

To George G. Leiper, John Willcox,
William Martin, Esqrs.

PUBLIC MEETING.

AT a meeting of a number of manufacturers and other citizens of Delaware County, convened agreeably to public notice, at the Court-house in Chester, on Saturday the 5th of August, 1826, for the purpose of receiving the Report of the Committee appointed at a former meeting, to ascertain the number of Manufactories, improved and unimproved Mill-seats in the County. *William Anderson, Esq.* was appointed Chairman, and *Dr. Samuel Anderson*, Secretary.

The object of the meeting being stated from the chair, Mr. Leiper rose and delivered the following appropriate address:

MR. CHAIRMAN,

It becomes my meloncholy duty fellow citizens to announce to you, as chairman of your committee, and in behalf of Mr. Martin who is absent, the decease of our respectable colleague and friend John Willcox, Esq. of this County. When the grey-headed pilgrim, covered with honour and with years, after a life of usefulness seeks repose in the tomb from the defections of human nature, or when the infant crowing in the mother's arms, is snatched from her caresses, we yield them with submission to their God. The one anchors his shattered boat in safety, where the perils and dangers of life shall disturb it no more—the other the Almighty

calls to himself before the fast is let loose and his little bark of destiny is allowed to leave the shore, to begin the voyage over the tempestuous and troubled ocean of mortality—but when we behold a young man in uncommon vigour of health—in the springtide of life and of usefulness—the prop of a most respectable and aged parent—a tender and affectionate husband and father, suddenly snatched from among us—are we stocks or are we stones, that we will not sympathise with those who are in sorrow?—Shall we not feel for that afflicted parent—for the bruised heart of her whom he had vowed to cherish forever—for the little pledges of their love, too young to realize the loss of their kind and indulgent protector, There is a balm in sympathy, there is a pleasure in knowing those we love are loved by others—and a resolution of this meeting may be often looked upon with interest by a child too young to recollect a father while living—a reminiscence founded on the evidence of those who associated with him, who loved him while living, and deplored him when dead.

I beg leave to offer the following resolutions, Which were unanimously adopted by the meeting.

Resolved, That this meeting sincerely regret the loss the County of Delaware has sustained by the decease of *John Willcox, Esquire*, one of her most public spirited and respectable citizens—and beg leave respectfully to offer to the family their condolence on this melancholy occasion.

Resolved, That a copy of this resolution, signed by the chairman and secretary, be delivered to his venerable father, and three copies be enclosed to Mrs. Willcox, one for herself; the other two to be handed by her in proper season to her children.

George G. Leiper, Esq. from the committee appointed for that purpose, submitted a Report containing a statistical account of the Manufactories, Mills, improved and unimproved Mill-seats in the County. The Report being read, it was on motion resolved, that 500 copies be printed.

Resolved, That Mr. John P. Crozer fill the vacancy occasioned by the death of Mr. John Willcox, in the Committee.

Resolved, That the proceedings of this meeting be published in the Upland Union.

WM. ANDERSON, *Chairman.*

Samuel Anderson, Sec'ry.
