	Appendix A, Report of Chief Clerk, Feb 19, 1901 [of J. T.		
97	Hickman]		
98-101		List of miscellaneous receipts for the year 1900	Table
		Receipts from operations of the Bureau of Water, as reported by the receiver of taxes [Water rents, Penalties,	
100		Frontage charges, Fees for searches, Charges for Ferrules on new connections, Miscellaneous, Total]	Table
102-116		Detailed expenditure of the Bureau for 1900	Table
	Appendix B, Report of the General Superintendent submitting		
	tables of expenses, pumpage and consumption of water during		
117-124	1900, Feb. 18,1901 [of Allen J. Fuller]		

	Description of pumping machinery of the Bureau of Water, Philadelphia, 1900 [pumping stations: designated	
	number of engine or turbine, types of engines, designated capacity - million gallons per day, high pressure	
	cylinder, int. pressure cylinder, low pressure cylinder, air pumps, forcing pumps, pumping; pumping stations:	
118	type of boilers, steam boilers]	Table
	Current expenses and work of the pumping stations for the year 1900 [Pumping stations and High service	
	stations: pay of employees, coal, lubricants, lighting, repairs to boilers and machinery, small stores, total	
	expenses, total gallons pumped, lift in feet including suction and friction, gallons pumped 100 feet high including	
	suction and friction, cost of raising one million gallons 100 feet, percentage of work done at each station, height	
118	of surface of basins above pumps in feet (data for last is missing)]	Table
	Total gallons pumped and consumed during 1900 [Months, Pumpage (Fairmount, Spring Garden, Belmont,	
	Queen Lane, Roxborough, Frankford, Total), Stored in reservoirs at end of each month, Total consumption,	
	Average daily consumption, Supplementary pumpage (Belmont, Roxborough, Mt. Airy, Chestnut Hill, Frankford,	
	Total, Average Daily), Total pumpage, Average per day, Percentage of pumpage, Maximum gallons for one day,	
118	Minimum gallons for one day, Total steam pumpage, Total water pumpage]	Table
	Fairmount pumping station, 1900 [numbers concerning the turbines - capacity, running time, gallons pumped,	
118	oils]	Table
	Spring Garden pumping station, 1900 [numbers concerning the engines - capacity, running time, gallons	
	pumped, coal, percentage of ashes, oils, mean water pressure and mean suction lift in pounds per square inch,	
118	gallons raised 100 feet per pound of coal]	Table
	Belmont pumping station, 1900 [numbers concerning the engines - capacity, running time, gallons pumped,	
	coal, percentage of ashes, oils, mean water pressure and mean suction lift in pounds per square inch., gallons	
118	raised 100 feet per pound of coal]	Table
	Queen Lane pumping station, 1900 [numbers concerning the engines - capacity, running time, gallons pumped,	
	coal, percentage of ashes, oils, mean water pressure and mean suction lift in pounds per square inch., gallons	
118	raised 100 feet per pound of coal]	Table
	Roxborough pumping station, 1900 [numbers concerning the engines - capacity, running time, gallons pumped,	
	coal, percentage of ashes, oils, mean water pressure and mean suction lift in pounds per square inch., gallons	
118	raised 100 feet per pound of coal]	Table
118	Pumpage diagram for the year 1900 [also: inches of rainfall, inches on dam, temperature degrees F.]	Diagram
	Frankford high service station, 1900 [numbers concerning the enginges - capacity, running time, gallons	
	pumped, coal, percentage of ashes, oils, mean water pressure per square inch, less mean pressure on suction	
119	pipe, gallons raised 100 feet per pound of coal]	Table
	Chestnut Hill, pumping station, 1900 [numbers concerning the enginges - capacity, running time, gallons	
	pumped, coal, percentage of ashes, oils, mean water pressure per square inch, less mean pressure on suction	
120	pipe, gallons raised 100 feet per pound of coal]	Table

		Mount Airy pumping station, 1900 [numbers concerning the enginges - capacity, running time, gallons pumped,	
		coal, percentage of ashes, oils, mean water pressure per square inch, less mean pressure on suction pipe,	
121		gallons raised 100 feet per pound of coal]	Table
		Roxborough high service station, 1900 [data concerning the engines - capacity, running time, gallons pumped,	
		coal, percentage of ashes, oils, mean water pressure per square inch less mean pressure on suction pipe,	
122		gallons raised 100 feet per pound of coal]	Table
		Frankford high service station, 1900 [numbers concerning the enginges - capacity, running time, gallons	
		pumped, coal, percentage of ashes, oils, mean water and mean suction lift in pounds per square inch, gallons	
123		raised 100 feet per pound of coal]	Table
		Belmont high service station, 1900 [numbers concerning the engines - capacity, running time, gallons pumped,	
		coal, percentage of ashes, oils, mean water pressure per square inch, less mean pressure on suction pipe,	
124		gallons raised 100 feet per pound of coal]	Table
	Appendix C, Report of the Assistant in Charge of Distribution,		
125	Feb. 2, 1901 [of W. Whitby]		
125	Mains		
125		New work	Table
126		Comparison of conditions relative to the distribution 1899-1900	Table
126		Meters	Table
126		Number of dwellings and of principal appliances for the use of City water	Table
127		Repairs	Table
127		Abandoned	Table
127		Fire hydrants	Table
128		Drills for attachments	Table
129		Service and supply mains laid during 1900, First district	Table
130		[Service and supply mains laid during 1900], Second district	Table
131		[Service and supply mains laid during 1900], Third district	Table
132		[Service and supply mains laid during 1900], Fourth district	Table
133		[Service and supply mains laid during 1900], Fifth district	Table
134		[Service and supply mains laid during 1900], Sixth district	Table
		Recapitulation of work on water pipes [New pipe or feet added, pipe used but adding nothing to feet in ground,	
134		total handled, pipe cut off and abandoned: purposes for which used, size in inches, total in feet and pounds]	Table
		Recapitulation by districts [New pipe or feet added, Pipe used, but adding nothing to feet in ground, Total	
134		handled, Pipe cut off and abandoned: size in inches, feet, pounds]	Table
		Total feet of pipe in use December 31, 1900 [Size in inches, total in use Dec. 31, 1899, extensions and relays	
135		during 1900, deductions during 1900, total in use Dec. 31, 1900]	Table
