[I]	Annual report of the Bureau of Water of the City of Philadelphia for the year ending December 31, 1913, issued by the City of Philadelphia	Volume held in Philadelphia Water Department Archives Catalogue No. 2004.057.0195	
[II]	Index		
1	Bureau of Water, Carleton E. Davis, January 1, 1914		
4	Revenues		
4		Revenues 1912, 1913	Table
5	Expenditures		
5		Expenditures 1912, 1913 [Improvements, Operation and maintenance, Totals]	Table
6	Consumption		
6		Population and Consumption of water in the distribution districts	Table
8	Pumping Stations		
8	Filters		
9	Distribution System		
11		A partial list of wooden trestle supported pipes	Table
12	Meters		
13	High pressure		
13	Hydrographic work		
14	appendix to Bureau of Water Report for year 1913		
14	Pumping Station Statistics		
14		Table 1. Comparison of the water pumped and coal consumed in 1912 and 1913	Table
14		Table 2. Comparative pumping station costs in 1912 and 1913 of raising 1,000,000 gallons 100 feet high	Table
15		High Service Stations 1912 and 1913	Table
15		Low Service Stations 1912 and 1913	Table
16-17		Table 3. Pumpage and itemized cost for 1913 [Station, Pumpage, Average lift., Labor, Coal, Oil grease and waste]	Table
18	Filter statistics		Table
18		Table I. Operating costs [Pre-filters, Final filters, Total cost, Million gallons filtered, Cost million gallons, Upper Roxborough, Lower Roxborough, Belmont, Queen Lane, Torresdale]	Table
19		Table II. Methods of operation of final filters [Total quantity - million gallons, Daily average - million gallons, Average rate per acre per day - entire area, Maximum rate per acre per day for area in service, Average number cleanings per filter, Average number days in service between cleanings, Average number cleanings by Nichols method per filter, Average number cleanings by Brooklyn method per filter, Average number cleanings by ejecting per filter, Average number rakings between cleanings]	Table

20		Table III. Important chemical tests by months - Torresdale filters. Chemical and microscopical character of Delaware River Water for the year 1913 [Month, Chlorine, Total hardness, Alkalinity, Total solids, Dissolved oxygen, Iron, Suspended matter, Oxygen consumed, Micro-organisms]	Table
21		Table IV. Turbidity and color - Torresdale filters. Turbidity and color of Delaware River Water for the year 1913	Table
22		Table V. Bacteria [and B. Coli] in Delaware River - Torresdale Filters. Bacteria in Delaware River water for the year 1913	Table
23		Table VI. Chemical data of water - Torresdale Filters. Corresponding to Chemical data of Delaware River, Table III, for the year 1913 [Month, Chlorine, Total hardness, Permanent hardness, Alkalinity, Free CO2, Iron, Oxygen consumed, Total solids]	Table
24		Table VII. Turbidity and color of water delivered to mains from Torresdale filters. Turbidity and color of water delivered to Mains from Torresdale Filters, for the year 1913	Table
25		Table VIII. Number of Bacteria and B. Coli in water delivered to mains from Torresdale filters. Numbers of Bacteria and of Bacilli Coli in water delivered to mains for the year 1913	Table
